## OBJECTIVE

Aspiring to secure a dynamic role as a Python Fullstack Developer, utilizing my expertise in front-end and back-end development to build high-performance applications and drive meaningful projects while continuously advancing my professional skills.

## EDUCATION

### Aditya Engineering College

Bachelor of Technology (ECE) - CGPA: 8.42

2020 - 2024

### Narayana Junior College

Intermediate (MPC) - CGPA: 9.69

2018 - 2020

### Mother Teresa High School

SSC - CGPA: 9.8

2017 - 2018

## SKILLS

**Programming Languages:** Python

**Web Development:** HTML, CSS, JavaScript

**Libraries & Frameworks:** Bootstrap, React.js

**Backend Framework:** Django

**Database:** MySQL

## PROJECTS

### Waterfall Tourism in India

- Developed a responsive landing page for Indian waterfalls tourism, enhancing user engagement.
- Designed and implemented a user-friendly form allowing customers to plan and customize their travel journeys.

### Car Rental

- Developed car rental website using React, featuring dynamic user interfaces, responsive design, and seamless navigation for an enhanced customer experience.
- Designed and implemented an admin panel with CRUD operations to efficiently manage car listings, bookings, and customer data.

## INTERNSHIP

### Amazon Web Services | Technical Hub

- Engaged in an internship program at Technical Hub, where I learned different types of services available in AWS and the use of that services in real world.
- Explored AWS monitoring tools such as CloudWatch to analyze system performance and implemented alerts for better resource management.

## CERTIFICATIONS & ACHIEVEMENTS

- **IT Specialist Python** – Certified by Certiport
- **TCS iON Career Edge - Young Professional** – Certified by TCS iON
- Awarded **5-Star Badge** in Python on HackerRank
